

Dear brothers and sisters,

Saints and mahatmas tell us that the Path is the way back to God, and that the Lord Himself comes into the world to give out this message to the souls.

Ever since the Almighty Lord started coming into this world in the form of the Saints, it has always happened that during a Saint's lifetime only a few people care to know about his life: where the Saint was born, how he used to live, what qualities he had, and why he came into this world. Sant Ajaib Singh

We the fortunate ones have obtained this human birth, the highest in all of Creation. So why not make the best use of it, and apply the words of the saints and mahatmas to our daily lives.

As my Teacher once concluded in His first message to the West, I hope you have followed what I have said.
